THE COMING DRAMATIC SEASON.—The German Insurance Company, having decided to run the Opera House the coming season, turned it over to the management of their efficient Secretary, Mr. F. Reisier, who had charge of the house during the latter part of the lisst season. Mr. Reister went to New York about ten days since, to look up attractions for the coming season, and got back yesterday.

Mr. Reister appears to have put in his time to good advantage, as, during the week he was in New York he made arrangements for the appearance of some forty different attractions in this city. We are not at liberty, to publish the list at present, as Mr. Reister expects to make large additions to it in the next thirty days, and prefers that it be published at all. We can say, however, that Mr. Reister has secured some of the finest attractions in the country, and that the dates will be pretty well filled up before the commencement of the scason, so that it is likely that our citizens will have an abundance of refined amusements every week of the season. These attractions consist of the most successful opera troupes, dramatic combinations, tragedians, comedians, minstrels and novelty companies in the United States, and Mr. Reister has shown excellent judgment in catering to the tastes of Wheeling theatre goers.

Mr. Reister reports that the New York managers feel confident of a prosperous and successful season. The season will open there the latter part of August, when a large number of combinations and stars will take the road. The season will the opened here early in the month of September, when the repairs to the Opera House will have been completed. The house has been put in complete repair, and made as comfortable and attractive as possible. The company has spared no expense in improving the house, and expect to keep it in good condition, and, as the part of the public will appreciate their efforts to please.
